

Digital Marketing: Client Questions and Answers

Frequently asked questions from clients of BrightPath Digital (fictional agency), written as questions and answers so that a RAG assistant can retrieve and answer from them.

1. About the Agency and Getting Started

Q1. What does BrightPath Digital do?

A: BrightPath Digital is a digital marketing agency that helps small and medium businesses attract and keep customers online. Our services include SEO, Google Ads, social media management, email marketing, content creation, web analytics and website optimization.

Q2. What types of businesses do you work with?

A: We work mainly with small and medium businesses, online shops, restaurants, clinics, training centers and local service providers. We do not require a minimum company size.

Q3. How do I get started with BrightPath Digital?

A: Book a free 30-minute discovery call through our website. We discuss your goals, audience and budget, then send a written proposal within 3 business days. Work begins after you sign the proposal and pay the first invoice.

Q4. Do you offer a free audit?

A: Yes. We offer a free digital marketing audit that reviews your website, search visibility, social media profiles and current ads. The audit report is delivered within 5 business days.

Q5. Do you work with clients outside Morocco?

A: Yes. We work with clients in Morocco, France and other countries, in Arabic, French and English. All meetings can be held online.

2. Services Explained

Q6. What is SEO and why do I need it?

A: SEO (Search Engine Optimization) is the work of improving your website so it appears higher in unpaid search results on Google. It brings long-term, free traffic from people who are already searching for what you sell.

Q7. How long does SEO take to show results?

A: SEO is a long-term investment. Most websites start to see noticeable improvements after 3 to 6 months, and strong results usually come after 6 to 12 months, depending on competition and the current state of the website.

Q8. What is the difference between SEO and Google Ads?

A: SEO earns free, organic visibility and takes months to build. Google Ads is paid advertising that can bring visitors within hours, but traffic stops when you stop paying. Many businesses use both.

Q9. What is social media management?

A: Social media management means planning, creating and publishing posts, replying to comments and messages, and reporting on results for platforms such as Instagram, Facebook, LinkedIn and TikTok.

Q10. Which social media platform should my business use?

A: It depends on your audience. Instagram and Facebook suit consumer brands, restaurants and shops. LinkedIn suits B2B companies and recruitment. TikTok reaches younger audiences. We recommend starting with one or two platforms and doing them well.

Q11. What is email marketing and is it still effective?

A: Email marketing sends newsletters, promotions and automated messages to subscribers who agreed to receive them. It is one of the most cost-effective channels because you own your contact list and can measure results precisely.

Q12. What is content marketing?

A: Content marketing creates useful articles, videos, guides and images that attract and educate your target customers, build trust and support SEO and social media.

Q13. What is a conversion rate?

A: The conversion rate is the percentage of visitors who complete a desired action, such as buying, filling out a form or calling. It is calculated as conversions divided by visitors, multiplied by 100.

3. Pricing and Contracts

Q14. How much do your services cost?

A: Our monthly packages are Starter at 500 USD, Growth at 1,200 USD and Premium at 2,500 USD. Starter includes social media management on one platform and a monthly report. Growth adds SEO, email marketing and 2 blog articles per month. Premium adds Google Ads management, video content and a dedicated account manager.

Q15. Is the advertising budget included in your fees?

A: No. Our fees cover our work only. The budget you spend on Google Ads, Meta Ads or other platforms is paid directly to the platform from your own account, so you keep full control. We recommend a minimum ad budget of 300 USD per month.

Q16. Is there a long-term contract?

A: Our standard contract lasts 6 months so that strategies have time to produce results. After that, the contract continues month to month and you can cancel with 30 days written notice.

Q17. What payment methods do you accept?

A: We accept bank transfer and credit card. Invoices are issued at the beginning of each month and are due within 7 days.

Q18. Do you offer one-time projects?

A: Yes. One-time projects include website audits, logo and brand design, landing pages and campaign setups. Prices are quoted individually.

4. Results, Reports and Communication

Q19. How will I know if the marketing is working?

A: You receive a monthly report with key metrics such as website visits, leads, conversion rate, cost per lead, social media growth and return on ad spend, along with recommendations for the next month. You also get access to a live dashboard.

Q20. What is ROI and ROAS?

A: ROI (return on investment) compares the profit generated with the total amount invested. ROAS (return on ad spend) is the revenue generated for every unit spent on advertising. For example, a ROAS of 4 means 4 USD of revenue for each 1 USD spent.

Q21. What are the most important metrics to follow?

A: The key metrics are traffic, leads, conversion rate, cost per acquisition (CPA), customer lifetime value, click-through rate (CTR) and return on ad spend, depending on your goals.

Q22. Can you guarantee the number one position on Google or a specific number of sales?

A: No. No honest agency can guarantee rankings or sales, because search engines and customer behavior change constantly. We commit to clear goals, transparent reporting and best practices.

Q23. How often will we communicate?

A: You have a monthly review meeting, a shared chat channel for daily questions, and a response time of 1 business day for emails. Premium clients also receive a weekly update call.

5. Ownership, Privacy and Practical Questions

Q24. Who owns the accounts and content you create?

A: You do. Your website, social media accounts, advertising accounts and all content created for you remain your property, and we give you full access at any time and hand everything over if you leave.

Q25. How do you protect my customers' data?

A: We follow data protection laws such as GDPR and Moroccan Law 09-08, collect only the data needed, use secure tools and ask for cookie consent on websites we manage.

Q26. Can you work with my existing website?

A: Yes. We can optimize your current website or recommend a rebuild if it limits your results. We work with WordPress, Shopify, Wix and custom websites.

Q27. What do you need from me to start?

A: We need access to your website, analytics, social media and advertising accounts, your brand materials such as logo and colors, details about your products and customers, and your main business goals.

Q28. How can I cancel or pause my services?

A: After the initial 6 months, send us written notice by email at least 30 days before the end of the month. You can also pause services for up to 2 months once per year.
